

Front Gate/Entry Information

Living in a gated community provides a sense of security for the homeowners.

When you have purchased a lot in Nantucket Shores, complete the *Owner & Resident Form*, (located in the FORMS section on the website) and send to Community Associations Partners (CAP), and they will provide a front entry code for your use.

You can also purchase a remote opener from CAP, our Nantucket Property Manager, which you can use to program a button on your car's garage openers if you'd like. Use your cars guide for pairing garage door openers for the specifics for your vehicle(s).

Your name(s) will be added to the gate entry phone system when you have a home in Nantucket Shores. When a guest arrives at the gate and wishes to contact you to open the gate, they will "call" you using the gate entry system, and upon answering, you hit "9" on your phone and the gates will open for them.

Note: Cell service is not available at the gate entry area. If your guests wish to call you using their cell phone, they must leave the area and find an area where there is cell service to make a call.
